

Uditha Prabhasha

UI / UX Designer

PROFESSIONAL SUMMARY

Product Designer with hands-on experience designing SaaS dashboards, analytics workflows and complex data-heavy interfaces. I help teams turn confusing product journeys into clear, usable experiences through research, wireframing, prototyping, usability testing and scalable Figma design systems. Experienced working with product managers and engineers to move designs from early discovery to polished, developer-ready product experiences.

EXPERIENCE

UI/UX Designer

Codimite PVT Ltd

Sep 2022 - Nov 2025 - 3 years, Sri Lanka

- Redesigned enterprise SaaS dashboards used by 1,000+ managers, making complex productivity data easier to scan, compare, and act on through clearer layouts, simplified workflows, and improved data visualisation patterns.
- Reduced confusion in workforce analytics workflows by using user research and usability testing to identify unclear reporting patterns, simplify key decision flows, and lower cognitive load for managers analysing productivity data.
- Improved product consistency and developer handoff by creating reusable Figma components, clear interaction specs, and scalable UI patterns for dashboard and reporting experiences.
- Supported end-to-end product design from discovery to execution by translating user needs, business goals, and technical constraints into wireframes, prototypes, and high-fidelity product designs.
- Worked closely with product managers and engineers to turn complex dashboard requirements into reusable Figma components, clear interaction specs, and production-ready UI patterns.

EDUCATION

Bachelor of Science (Hons) in Information Technology

Specialisation in Interactive Media

Sri Lanka Institute of Information Technology (SLIIT)

2020 - 2024 Sri Lanka
